

# Sustainability agenda

Turn off the water - less water

Bring fewer electronics - used combined products

turn down the temperature of the water

don't bring other lights or lamps

use the correct light bulbs (100 W vs 15 W bulb)

don't buy all new stuff for college - rescue sale

unplug your electronics(turnoff)

purchase quality stuff or used items - don't recreate stuff - computers use power to manufacture

use energy efficient heating systems

storage for student materials on campus

don't buy bottled water

carpool or bike rental and zip car

keep windows closed during the winter

Keep heat at a reasonable level

What should I bring to campus???
