The State of Maine's Environment 2008

We would like to thank the many people who helped us to develop this report. We spoke with numerous experts in our fields of study, all of whom provided excellent insight on our topics. Also, Colby faculty and staff helped us immensely to design, compile, and produce this report. We would especially like to thank our professor, Philip Nyhus, for his unparalleled dedication to our class throughout the semester.

Colby Faculty and Staff
